

Add an extra pack

Raise a single plan limit, such as events or notices, with a recurring or one-time pack, without changing plan.

3 min · Available · 2026-09-26

Before you begin

- ✓ You need the Manage partner store permission.
- ✓ Recurring packs need a paid plan; on the Max plan they are not needed because limits are already unlimited.

1 STEP 1 OF 4 · 30 S

Open Extra packs

Open **Settings** → **Store MiaChiesa** and choose **Extra packs**. Each tile shows how much it adds to the plan (for example **+3 events**) and the price.

Pick the item you need and select **Add**. Packs already active show **Deactivate**.

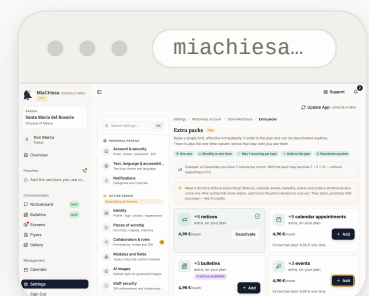

Fig. 1 Each pack raises a single plan limit.

2 STEP 2 OF 4 · 1 MIN

Choose recurring or one-time

In the dialog choose how to buy it. **Every month** (recommended) is added to the plan's invoice and can be deactivated anytime, at the end of the period. **Extras that stay** is one-time: the extras never expire and are used once the plan's allowance runs out.

Not every pack has a one-time version. Select **Add to cart**.

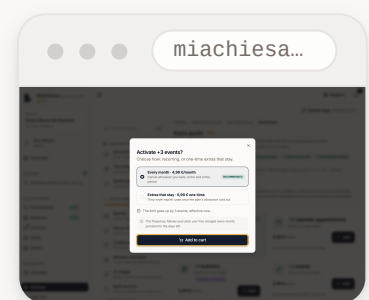

Fig. 2 A recurring pack follows the plan's billing frequency.

3

STEP 3 OF 4 · 1 MIN

Confirm from the cart

Open the cart from the **Cart** bar at the bottom right. Check items and totals, then confirm: with recurring packs only the button reads **Confirm · on the plan's invoice**; with one-time items it reads **Confirm and pay** with today's amount.

On a paid plan Stripe charges the plan's payment method, with no new checkout.

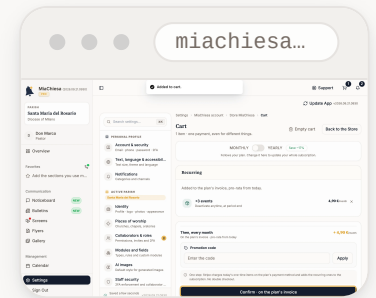

Fig. 3 One step for everything in the cart.

4

STEP 4 OF 4 · 30 S

Check the purchase

Purchase complete appears with what you added (for example **Recurring · active now**). The limit goes up straight away.

To stop a recurring pack go back to **Extra packs** and select **Deactivate**: it stays active until the end of the period.

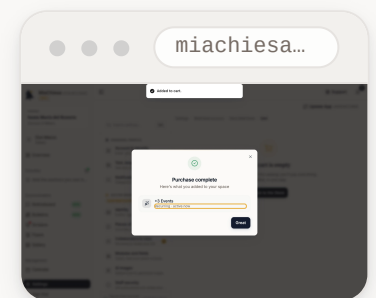

Fig. 4 The pack is active and the limit has already gone up.

What you have achieved

- ✓ The chosen limit is raised straight away.
- ✓ A recurring pack appears on the plan's invoice; a one-time pack stays until you use it.

Troubleshooting

The tile shows "Already unlimited"

Your plan has no limit for that item: you don't need the pack.

I see "Already in the cart."

The pack was already added: open the Cart to confirm.

I see "Available with a paid plan only."

On the Base plan that pack exists only as a subscription add-on: use See the plans.

The tile shows "Ends at period end"

The pack was deactivated: it stays valid until the end of the period already paid.
